### Soil Test Probes

No Cost

General specs:

Standard soil sample probe

Easily gather soil plugs for soil testing

For a list of local soil testing resources visit

[www.VanBurenCD.org/resources/soil-testing](http://www.VanBurenCD.org/resources/soil-testing)

### Wheel Scales

No Cost

General specs:

20,000lbs capacity/scale

5 scales available (for tandem axel manure spreaders)

Determine accurate manure application rates in a few easy steps.

1. Weigh empty spreader 2. Weigh full spreader 3. Measure the size of the manure application area.

### Irrigation Uniformity Equipment

No Cost

General specs:

Catch Cans for determining irrigation output to the soil.

Accurately determine how much water is reaching the soil,

how uniform applications are across the field, and circumvent the need for a flow meter
