Equipment for Lending & Rental

Wheel Scales

No cost – \$75 refundable deposit when equipment is returned on time and in good condition

General specs:

- 20,000lbs capacity/scale
- 5 scales available (for tandem axel manure spreaders)
- Determine accurate manure application rates in a few easy steps
 1. Weigh empty spreader
 2. Weigh full spreader
 3. Measure the size of the manure application area

Irrigation Uniformity Equipment

No cost – \$50 refundable deposit when equipment is returned on time and in good condition

General specs:

- Catch Cans for determining irrigation output to the soil
- Accurately determine how much water is reaching the soil, how uniform applications are across the field, and circumvent the need for a flow meter

Japanese Knotweed Injector

No cost – \$50 refundable deposit when equipment is returned on time and in good condition

General specs:

- Japanese Knotweed is on the eradication list for Van Buren County
- Landowners with Japanese Knotweed on their property should not mow, cut, dig, burn, or move any part of the plant
- Best treatment method is with the Injector during the fall season
- Specifics on treatment method should be discussed with the Invasive Species Coordinator
