WHY BUY LOCAL?

Local is more than a place on a map. Local is your friends and family, your neighbors, their farms, businesses, and events. Buying local builds resilient local food systems, stronger communities, and local economies. What better place to do this than Van Buren County?

Michigan ranks second in agricultural diversity in the US. We can see that here in Van Buren County– our soil and climate allows a huge diversity of food to thrive. Take a look at how we rank statewide!

Amongst Michigan's 83 counties, Van Buren County ranked in market value:

- 1st in fruits, tree nuts, and berries
- 4th in cultivated Christmas trees
- 5th in vegetables, melons, potatoes, and sweet potatoes
- 16th in hogs and pigs
- 23rd in milk from cows
- 26th in poultry and eggs

*(*National Agricultural Statistics Service, 2017 Census of Agriculture)*

Whatever the reason, buying local is full of benefits. Here are some benefits of buying locally-grown food:

1. The Fresher, the Better!

Fresh food does not just taste better, it is better! Food loses nutrients as time passes. Local food is closer to your table so it's more nutritious!

2. Better for the Environment

Store-bought food can come from hundreds or thousands of miles away, creating tons of pollution. Local food creates far fewer pollutants making it better for the environment.

3. Accountability

Since the farmers grow or raise the food themselves, they know what goes in it. They are accountable for what goes into making food, ask the farmer themself!

4. Better for the Local Economy

Money spent locally, stays local. Local businesses pay local taxes, hire local workers, and support other local businesses. Keeping your money local means it spreads locally, which benefits all of us.

5. Supporting the Local Farmer

Buying from local farms helps keep our neighbors in business. This helps maintain our rural character and helps farmers afford to support their families and their community.

MICHIGAN AGRICULTURE ENVIRONMENTAL ASSURANCE PROGRAM (MAEAP)

MAEAP gives recognition to farmers and landowners who are environmental stewards. Participants address pollution risk, showing they care about the environment. Assessments are free, confidential, and non-regulatory.

Look for the logo!

The MAEAP logo means they are MAEAP verified. The “Working on” MAEAP logo means they are working toward their verification.

Are you a farmer or grower?

Are you a farmer, grower, or habitat landowner? Contact our Senior MAEAP Specialist to learn how you can be an environmental steward!

SWxSW CORNER CISMA (COOPERATIVE INVASIVE SPECIES MANAGEMENT AREA)

The SWxSW Corner CISMA is a Cooperative Invasive Species Management Area. Invasive species are non-native plants and animals whose introduction causes harm to our environment, human health, and economy. The CISMA Team helps anyone in Berrien, Cass, or Van Buren Counties to understand, prevent, and manage invasive species. Learn more about the CISMA and invasive species at
